### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art fails to teach a combination of all the limitations as claimed in the independent claim 1, wherein the claimed invention comprising a weldingless bridge which comprises a bridge body having two lens holding arms coupling with two inner sides of said lenses respectively and two functioning arms integrally and rearwardly extended from said bridge body, wherein said bridge body, having a H-shaped cross section, has two longitudinal grooves formed along two longitudinal side portions respectively to form two elongated arms at each side portion of said bridge body, wherein two of said elongated arms of said bridge body are formed as said two lens holding arms to couple with said inner sides of said lenses respectively; and two nose pieces coupling two free ends of said functioning arms respectively, wherein said two functioning arms are respectively formed as two nose supporting arms to support said nose pieces in position such that said weldingless bridge is formed as a primary bridge to support said lenses in position so as to form a primary spectacle, wherein another two of said elongated arms of said bridge body are rearwardly folded to form as said two nose supporting arms to couple with said nose pieces respectively, as claimed. The prior art does not disclose or fairly suggest, by themselves or in combining with any other reference, to meet a combination of all the limitations as claimed in claim 48,50,65. Therefore claims 48-76 could be allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
